COUNTY ENFORCEMENT OF THE LIQUOR LAW.

At the Republican County Convention held in Augusta Tuesday, the Oakland delegation entered objections to the nomination of County Attorney Heselt, on account of a cited case where he acted as counsel for a brewer in collecting a bill of a rum seller, and on account of the non-enforcement of the prohibitory law. Those defending Mr. Heselt stoutly asserted his right to act as attorney in the case—but had less to say about the present enforcement of the law. To the layman, it would seem the County Attorney engaged in earnest enforcement of the laws, would have passed such a client by. But the County Attorney's action in that one case is far less culpable than the general stand taken by the party in regard to the liquor law. The present condition of affairs is a disgrace to a party which is so pronounced in its endorsement of prohibition.

In Hallowell, we have a row of rum-sellers and druggists left unmolested in their business. Worse conditions prevail elsewhere in the county. It is not true that public sentiment wishes this order of things. Five hundred petitioners to the Hallowell Board of Aldermen a year or more ago asked for a better enforcement of the law; a still greater number asked the same thing in August. Doubtless, stronger petitions could be gained in parts of the county more afflicted with the rum curse.

But if public sentiment were wanting, that would be no excuse for the neglect of duty of the officials. They have no discretion, other than to do the duties pointed out by the law. The enforcement of the laws against adultery would prove unpopular with some men in a community; the enforcement of the old Sunday laws would prove objectionable to more; but the law-abiding would respect them. The burden of the enforcement of the law rests with the official and not with the individual. The dominant party should show, beyond question, that it is catering to the law-abiding and not the law-breaking element in the community. Nearly 200 men asked practically that same thing in Waterville, there must have been some Christian men in the Augusta convention asking that same question. It is better to be honest, than hypocritical, in the enforcement of the liquor laws.

A DEED OF WONDERFUL BRAVERY.

Lieut. Hobson and his seven brave companions challenge the admiration of the nation in a deed of bravery in Santiago Harbor last week, which has never been excelled, or at least in but a single instance in our history.

They are the men who ran the collier Merrimac beneath the guns of the Spanish forts and sank her in the channel, thereby closing the port of Santiago and sealing up Cervera's squadron. As long as the world admires brave deeds, so long will this courageous act be remembered and praised.

Lieut. Hobson took the big steel collier Merrimac at break of day into the narrow harbor channel, by the deadly fire of forts, into the face of a large Spanish fleet, over mine fields and having swung her around so that her 350 feet of length totally closed the channel, he deliberately sunk his vessel there by means of an internal torpedo. The Merrimac exploit recalls that of the young officer Somers who in the war with Tripoli in 1804, with Henry Wadsworth as second in command and ten sailors, ran the ketch Intrepid into the harbor and blew her up in the midst of the enemy's shipping. The object was accomplished, but Somers and Wadsworth and their gallant men were never seen again. They perished with the ship. Lieut. Hobson and his men took the same risk. They are now imprisoned in Morro Castle.

The full list of the gallant crew which accomplished this feat is as follows:

Lieutenant Richmond P. Hobson, of Alabama, officer of the flagship New York.

Daniel Montague, of Brooklyn, N. Y., chief master at arms of the New York.

George Charette, of Lowell, Mass., gunner's mate on the New York.

J. C. Murphy, coxswain of the Iowa, Osborn Deignan, of Iowa, coxswain. George F. Phillips, machinist, of Boston.

Francis Kelly, of Glasgow, Scotland. Randolph Clansen, of New York, coxswain of the New York.

The chivalry of Admiral Cervera in commending the bravery of Hobson, and assuring Admiral Sampson they should have every kindness shown them seems nullified by his placing them in confinement in Morro Castle. The proposed exchange of prisoners to release Hobson will depend on Blanco's word.

SUMMER SCHOOLS.

The summer schools for the present season will be held at Pittsfield, commencing July 11th, at 11 a. m.; at Houlton, July 18th, at 9 a. m.; at Machias, July 25th, at 9 a. m.; at New-castle, August 1st, 9.30 a. m.

The schools will be in session two weeks each. There will be two sessions each day with the exception of Saturdays, which will be holidays.

Instruction will be given in the following subjects: Nature Studies, Common School Studies, Music, Physical Culture, Elementary Psychology, Pedagogy, Literature and such other branches as the several programs will permit.

Certificates will be issued to teachers who attend one of these schools for at least two-thirds of the sessions. Diplomas will be granted to those who hold four of these certificates.

The tuition is free. The printed syllabi, lists of books, etc., are furnished by the State. The expenses of the teachers are limited to traveling fees and board.

COMMENCEMENT AT ORONO.

The annual commencement exercises of the University of Maine will be held June 18-22. The program is as follows:

Saturday June 18.—Junior prize exhibition in the town hall at 8 p. m.

Sunday June 19.—Baccalaureate address by President A. W. Harris in the Methodist Episcopal church at 8 p. m.

Monday June 20.—Convocation in the University chapel at 10 a. m.; class day exercises at the town hall at 2.30 p. m.; reception of the Q. T. V. society in its new chapter house.

Tuesday June 21.—Exhibition drill on the campus at 10 a. m.; receptions by the Beta Theta Pi, Alpha Tau Omega and Kappa Sigma societies at 3 p. m.; reception by the president at 8 p. m.

Wednesday June 22.—Commencement exercises at the town hall in the Methodist church, at 10 o'clock followed by the commencement dinner. Immediately after the dinner a meeting of the Alumni association will be held. The commencement exercises will be held at 8 o'clock.

THE DEWEY TESTIMONIALS.

Congress passed a vote of thanks for Admiral Dewey, and the Senate added a reward for Dewey and medals for the men, making an appropriation of \$10,000 for the purpose. The latter is still in the committee on appropriations.

It is charged that Mr. Cannon, the chairman, who was opposed to the war, is determined that no more glory shall come to any one from the war than he can help, and will not report the bill, and that Speaker Reed is with him. This would be pretty small business for either of these men, and the charge must be groundless. So far as the glory goes no act of Congress can change that, for Dewey and his men have got that whether they get the trophies or not. It is a pretty small business though to hold up the bill, whoever is to blame for it.—Reporter-Journal.

It has been more than a month since Dewey won his victory at Manila, and the need of troops to support him became known, and yet only about 5000 out of the 20,000 needed have started. While perhaps some of the delay is attributable to inefficiency in certain quarters, the most of it undoubtedly has been unavoidable, arising from the fact that we have had no such number of troops as was needed ready, and no such number of ships as was required to transport them. The expedition to Santiago has been planned ever since it was discovered that Admiral Cervera's fleet was shut up in Santiago, and yet though troops in large numbers were in close proximity to Florida ports and transports were ready, only a small number, if any, have yet embarked. People on the coast towns may thank good fortune that the contest is not with a vigorous nation.

The present war with Spain will stimulate Yankee ingenuity as nothing else has ever done. The submarine boat, the war balloon with dynamite attachments, the aerial torpedo, and various electrical agents, are all to arrive in due season.

The United States Senate places itself in better standing by passing the War Revenue bill—but in amended form. The two branches will doubtless agree at an early date. Meantime General Deficiency is swelling beyond his uniform.

Portland is to be visited July 4th by several companies of Canadian troops, with a band of music. Possibly some war ships will come. This means a demonstration of the cordial peace relations between Great Britain, America and Canada.

WASHINGTON LETTER.

June 6, 1898.

The administration is highly pleased with recent war news, and even more so with the outlook. Admiral Sampson only awaits the arrival of the army, which ought to be on the ground by now, to make a combined land and sea attack upon Santiago de Cuba and to capture or destroy the Spanish fleet now known to be in that harbor. It is impossible to say how long it will take, owing to the lack of definite knowledge as to how strong a defense the land fortifications will be able to put up, and the amount of assistance the insurgents will give our land forces. Although General Shafter, who is in command of the army sent to assault Santiago, will welcome any assistance rendered by the insurgents, his plans are in no ways dependent on their assistance. The assault will be a strictly business one from the start, as the orders of General Shafter are to take the town of Santiago, and those of Admiral Sampson to take or destroy the Spanish fleet.

The present program is to follow up the capture of Santiago with the capture of Porto Rico, the fleet going from Santiago to San Juan and troops following at once from Florida. The opinion is strongly prevalent in administration and diplomatic circles that if Santiago and Porto Rico can be captured without any delay the war will practically be over, and that it will be unnecessary to send an army to Cuba for the purpose of capturing Havana. The ground for this opinion is the belief that if these blows can be struck in quick succession Spain will realize that she has been sufficiently whipped and will ask for peace, consenting to accept the loss of the Philippines, Porto Rico and Cuba. But this opinion is not lessening the efforts to push the war.

Gen. Blanco is now cut off entirely. The only Cuban cable remaining uncut is that to Key West, of which he can make no use. By the time Santiago and Porto Rico are disposed of we shall have our entire army thoroughly equipped and ready to move on Havana, if it be necessary to do so.

It is heroic deeds like that performed by Lieut. Hobson and a crew of seven volunteers who carried the U. S. collier Merrimac into the narrow mouth of the harbor of Santiago de Cuba, under the hail of Spanish shot and shell, and sank her to obstruct the channel, that are the real heroes of the war.

General A. H. H. asked for volunteers for this perilous duty, regarded as going to almost certain death, more than four hundred men responded, although only seven were wanted. The seven heroes performed their work and escaped death, but they were all captured by the Spanish. Promotion and ovation awaits them, when they are restored to liberty either through exchange or by the capture of Santiago by our forces.

In the course of a somewhat spirited reply to the intimation of Senator Allen that the money spent by the Bimetallist Commission during its visit to Europe was wasted, Senator Wolcott, who was at the head of that commission, used the following language, which shows that he still has hopes: "The experiment which is now being tried in India, in the opinion not only of the bimetallists of the world, but also of nine-tenths of the gold men of London, where the situation has been carefully studied, will result in absolute and entire failure. It will be impossible to impose the gold standard upon the people of India. In the face of this conceded fact, I say he is an enemy and not a friend of bimetallism who stands up in this presence and talks about international bimetallism being a delusion and a snare. And yet it appears that he has no argument to present, except that embodied in the statement—untrue, unpleasant, and undignified—that the Bimetallist Commission took a large sum of money and squandered it." Mr. Wolcott stated that the entire expense of the commission had only been \$16,000. Senator Allen disclaimed any intention to reflect upon anybody, but reiterated his statement that the appropriation to send a commission to Europe had been made when it was known that its mission would be a failure, and that it should not have been made. Silver men regret this controversy between two friends of the silver metal.

Although the Senate by a vote of 48 to 31 decided on the coinage of the seigniorage of the silver bullion in the treasury, it is generally regarded as merely a sop to the silver men and not likely to be in the war revenue bill when it goes to the President. The understanding is that the House conferees will also insist upon striking it out, and the belief is that in the end the Senate will agree. It is believed that the House conferees will insist upon making the amount of bonds issued \$500,000,000, as in the original House bill, instead of \$200,000,000 as in the bill when passed by the Senate, and that the Senate will agree. Members of the administration say that

the amount authorized by the Senate will not be sufficient. The President is using his influence to hurry up action upon the bill, which is now in conference. It is hoped to complete it this week.

Speaker Reed has made a positive statement that the House will be allowed to vote on the resolution for the annexation of Hawaii this week, and it is an absolute certainty that it will be adopted by a large majority when it is voted on. But there is no abatement of the opposition in the Senate, and fears are expressed that the minority can stave off a vote indefinitely and will do so, unless they can be reached by the force of public opinion in favor of annexation.

THE SIGNAL SERVICE.

General and acting chief signal officer of the Department of Arizona in 1890, when these unparalleled ranges were worked over, while showing the superiority of the American method, likewise developed certain points wherein improvements were desirable. The outcome was a standard heliograph, whose important points are its fixed flash, simplicity of form, strength of construction, reasonable weight, interchangeable parts, small, square, perfect mirrors, accuracy of sight and adjustment, stability in use, and a complete separation of the flash mirror from the signal screen.

The appropriations for the Signal Service have heretofore been quite inadequate to its needs, but the present war will undoubtedly show how important an arm of our military it has become, and more generous support will be given it.—The Outlook.

LOUDON HILL NOTES.

Ernest Williamson, of the M. C. R. R., was at home Sunday.

Mr. Freeman Williamson has gone to work for the Berlin Mills Co. in Farmington.

Mr. Millard Smith, Mr. George Church and Mr. Fred Fuller went to Coburnscontee Tuesday.

Mrs. Sarah Norton, who has been living in Augusta during the winter, has returned to her home for the summer.

The residents of the Hill are very glad to see that the material for a new sidewalk has been furnished.

Irving Robinson has secured employment on the A. H. & G. R. R.

Mrs. George S. Fuller returned home from a week's visit to Boston Saturday.

Mr. Frank Foster and Mr. S. Hall, of Gloucester, Mass., were the guests of Mr. and Mrs. J. F. Stearns, Wednesday.

Mr. Arthur Hold has moved into Mr. Lemuel Marr's house.

wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

Local Notes.

At the annual meeting of the Maine Homoeopaths in Augusta Tuesday of last week, Dr. Will S. Thompson read a very interesting paper on "Sanitary Service."

The steam dredger "Quebec" commenced work Monday on dredging the channel between Augusta and Hallowell—a steam tug and six scows accompanying the dredger.

Dingley & Decker, Gardiner, offer for rent or sale a very desirable house on Loudon Hill—formerly occupied by O. L. Reynolds. The house is new and very pleasantly located.

Mayor Safford, of Hallowell, has shown his appreciation of a good work by donating \$100 to the Hallowell Improvement Society—an organization which puts its city in the lead in many respects.—*Levee Journal*.

The Farmington authorities are looking after the unlicensed dogs. Collector C. J. Clement has issued a circular to all dog owners giving them full information in regard to the law, and notice of intended enforcement.

In deference to the Baccalaureate exercises of the High School, the children's day exercises prepared by the M. E. and Congregational churches for the second Sunday in the month will be given Sunday evening, June 19.

Have you noticed the increase of the military spirit? In Augusta, everybody salutes everybody a *major*, and in Hallowell the small boys wear striped pants and wooden swords. Yes, the military spirit is on the increase.

An army of worms and caterpillars is in possession of the town, and unless more vigorous warfare is waged against them, the pests will destroy the fruit tree. Apples and cherries.

Middle street seems to be a center for welcome improvements. The grounds about the houses owned by the Bodwell estate have been greatly improved; and Mr. A. S. Chadbourne is making extended changes for the better in his residence.

The young men who have been building a Tennis Court at considerable labor and some expense do not realize the full cost of such a playground. Whitelaw Reid is building a court at his summer house in the Adirondacks which will cost him \$20,000. Our boys put out their muscles, Mr. Reid puts out his money. The result is the same.

A liquor detective at work in Richmond and Bath found considerable contraband goods in one way and another. The Journal calls this detective's operations "Dirty Spotter's Work." We can see no difference between the ordinary detective and the liquor spotter. Both men use the best means at hand to catch their victims.

A slight fire occurred at Emery's Fish Market Tuesday evening. Passers-by noticed smoke coming from the store through the transom. Chief Patterson, and members of the Fire Department, forced an entrance, and with fire extinguishers soon ended the trouble. Mr. Emery closed the store at 5.45, and has no knowledge of the cause of the fire.

The Kennebec Conference of Congregational churches will meet at Pittston chapel, June 14 and 15, for its 75th annual meeting. Reduced railroad fare for round trip to Gardiner. Special carriage fare from Gardiner to Pittston, 10 cents each way.

A group of young ladies, teachers of the Hallowell Sewing School principally, are at work sewing for the soldiers—manufacturing needed articles. It will be in order for the city to send on a box of clothing for the boys at Chickamauga as Norway has already done.

Next Monday evening, a special meeting of the City Government will be held in relation to revision of the City Ordinances to give the Board of Health needed authority in sanitary improvements. The ordinances were revised three years ago, and a rather expensive edition of the local ordinances printed.

"Probably born." The Journal is fast extending its vocabulary of extravagant phrases. The last is in relation to a distinguished member of the navy, recently deceased, that he was "probably born" in Augusta. Just what such a phrase may mean—only the writer knows.

We have a lot of russets in ladies' misses', children's and men's sizes. Some out of style which we will sell cheap at 147 Water St. G. H. Ordway, agent.

PERSONAL NOTES.

Miss ALICE SHERMAN, a graduate of the Westbrook Seminary, succeeds Miss Mattie Randall in the school-room work at Industrial School, No. 2. Miss Sherman entered upon her work June 1.

Many Hallowell friends will sympathize with Mrs. HATTIE DUKER, who has been clerking with J. H. Leigh & Co. She is obliged to give up her work for the time, on account of her health.

JOHN N. TAYLOR, of the Boston Globe, has been in camp with the 2d Mass. Regiment, at Tampa, Fla., and has furnished his paper with daily camp news.

MR. WILL H. LOWELL, of Rumford Falls, was in the city Monday and Tuesday. He made the trip, 55 miles, each way by carriage. Mr. Lowell is pleasantly situated in this thriving new town.

Mrs. J. M. EYKLETH will visit her brother, Dr. John Douglass, of Amesbury, Mass., another week for a fortnight's vacation. Miss Abbie Eveleth, who has been the guest of Rev. Lyman Abbott in New York will return with her.

CAPT. WM. PARRIS, of the schooner "Winnepeg," who has been in port ten days since arriving with coal, is to load with ice for Gardiner parties, and took charter Wednesday.

MR. FRANK S. WINGATE was in attendance Wednesday upon a convention of Good Templars held in Belgrade. Ask Frank the distance to Belgrade Mills.

MR. A. F. MORSE made the trip Wednesday to Newport, R. I. He goes as a representative from the Fairfield Quarterly meeting.

MISS MATTIE RANDALL is the guest of her friend, Miss Helen Wilder, at Lake Coboscocontee.

Mrs. R. A. BRAINARD, Lincoln street, was called to Holliston, Mass., this week, by the death of a cousin.

Hallowell friends will be glad to learn that Miss MARY DOLE will return from Malden, Mass., to make her home here for the summer. Her cousin, Mrs. Plummer, will accompany her.

Mrs. VIVIAN, of New York, is the guest of her sister, Mrs. H. M. Pearson.

MISSES ETHEL and VERA JOHNSON return from Lassell this week. Miss Ethel graduated from the institution this term, and has maintained an excellent rank.

AMT DAVENPORT, of Gardiner, who removed to that city 30 years ago, has just closed out his clothing business there. There is only a limited number of merchants in the three cities who have been in business an equal length of time.

The floral department of the A. H. & G. Co., is exchanging its fine collection with the advancing warm weather. The ivy which ornaments the power house carried well through the winter; the boys have beds of pansies and tulips in growing order. That part of the city will show a neat front.

The body of little Charlie Springer who was drowned in the Kennebec Saturday afternoon, May 28, was found in the log boom some distance below the Chelsea Ferry Monday morning. Mrs. Springer, the mother of the little boy, and Mr. Geo. Springer found the body after several hours search that morning. The examination of the body, by City Physician Hamlet, found no cause for special inquest. The funeral was held Monday afternoon.

Lient. Com. E. W. Sturdy, of the U. S. Collier Pomper, who died on his vessel while on her way to Key West, was born in Hallowell, we are told. His father was at that time Agent of the Cotton Mill here. Commander Sturdy was one of four brothers, who will probably be remembered by some of our people. He had been in the service 30 years. Commander Sturdy was appointed to Annapolis by Senator Lot M. Morrill, and graduated from that institution in 1891. He was buried at Key West, with fitting naval honors, Tuesday afternoon.

Editor Slinger, of the Damariscotta Herald, will be interested in the following item. Early in the season, a pair of English sparrows worked industriously building a nest within the folds of the window awning over one of our banks. In accord with the wishes of the President, the nest was left undisturbed the required time, for family work. When the awning was taken down, a well-made nest with 5 eggs was found, but the birds had deserted their home. It is curious to note the ingenuity of these greedy little fellows in the selection of homes.

Mr. Arthur R. Newcombe, of Co. H., First Maine Volunteers, has been appointed Postal Clerk, with Chaplain Estabrook, and is on duty. Arthur is popular with the men. The task of handling the mail sent and received by 1000 men represents considerable work. Mr. Newcombe is the oldest son of Rev. W. A. Newcombe of Thomaston, and is a young man with lots of friends both in camp and at home. Arthur comes from a family who have furnished soldiers to three wars of this country. His grandfather served in the war of '61, his great grandfather in the war of 1812, his great great grandfather in the Revolution.

The regular quarterly meeting of the Trustees of the Industrial School was held Wednesday. Mr. Andrew Hawes, of Deer-Island, Miss Farnell, of Rockland, C. C. Hunt, of Augusta, and the resident trustees were present. Only routine business was transacted. The trustees were much pleased with progress made on the new building. The foundation walls are completed, most of the piers are in place, the brick work completed to the first floor. Contractor Bradstreet is pressing matters.

Mr. John A. Spear, the new member-elect of the board of County Commissioners, will give good service. We all have confidence in his honesty and ability.

Mr. James Atkins, who has been telegraph operator at the Gardiner depot for several years, is transferred to the Augusta freight house this week. The promotion brings with it an increase in salary.

At the meeting of the City Government Monday evening, a roll of accounts amounting to \$11,405.94 was ordered paid. The purchase of pipe and material now used for the water works called for nearly \$9,000. But little other business was transacted.

At the W. C. T. U. meeting held with Mrs. J. W. Church Thursday, an interesting report of the County Convention was presented by Mrs. W. H. Perry. "Domestic Science" was the subject under especial discussion.

In Gardiner, the assessors had on their books 167 dogs subject to license. A little enforcement of the law was urged, and 240 were given licenses, 32 were shot, and 76 are running loose. Where one family in a community keeps two or three worthless animals, the number soon reaches a considerable figure.

Mr. Joseph E. Howe has leased the Daniel Allen farm on farther Central street, formerly the property of Hadley O. Hawes. It is one of the prettiest places in the County.

The roof of the Atkins tannery property, Hallowell, now occupied by George H. Seavey, glass manufacturer, caught fire Friday forenoon from sparks from the big chimney and the flames had gained considerable headway before discovered. After a hard fight with water buckets the flames were subdued, but not until after a considerable space had been burned.—*Maine Farmer*.

Rev. John R. Boardman, formerly of Augusta, who has accepted a call to the Hallowell Congregational church, won high honors on his graduation essay at Hartford Theological Seminary, taking the Walker prize in Evangelical Theology. Mr. Boardman commences his labors here July 1.

The Improvement Society unites this week in an effort to improve the outlook in rear of the business street. A crew of good men were on duty Thursday, working in the rear of the stores above the Town Landing. Street Com. Field put on the road machine and graded down the rough places. After this date, the wish is that all refuse to be deposited above the Town Landing should go to the north end of the filled land. The plan is to sow to grass the part ready—which will give quite a little river park. Later, a large amount of rock and waste material from the line of the water works improvements will be ready for distribution below the same points. The Street Commissioner and some of the merchants wish the City authorities to make some needed regulations which will preserve what improvements are made.

Water and sewerage have given the Industrial School management not a little trouble in recent years. Last year the trustees solved the water problem by building a large reservoir from which water is pumped to the different buildings. They also laid a sewer to the boundary line on Winthrop street, thinking the City Fathers would at once extend the Winthrop street sewer up to the Industrial bounds. For some reason, the matter was delayed beyond the season. The statement is given out now that this action was due to the feeling that the school management ignored Hallowell traders in their purchases. It is true that the treasurer purchases his supplies in quantity in Portland—that seems good business; but to take petty means like the above to resent the matter seems narrow. The present council and business men see no good reason why the sewer should not be built and it will probably be constructed the following summer. The institution is in no sense a detriment to the community. The erection of the present new structure gives employment to Hallowell men largely, and is one instance of its advantage to the city.

Water and sewerage have given the Industrial School management not a little trouble in recent years. The present council and business men see no good reason why the sewer should not be built and it will probably be constructed the following summer. The institution is in no sense a detriment to the community. The erection of the present new structure gives employment to Hallowell men largely, and is one instance of its advantage to the city.

Water and sewerage have given the Industrial School management not a little trouble in recent years. Last year the trustees solved the water problem by building a large reservoir from which water is pumped to the different buildings. They also laid a sewer to the boundary line on Winthrop street, thinking the City Fathers would at once extend the Winthrop street sewer up to the Industrial bounds. For some reason, the matter was delayed beyond the season. The statement is given out now that this action was due to the feeling that the school management ignored Hallowell traders in their purchases. It is true that the treasurer purchases his supplies in quantity in Portland—that seems good business; but to take petty means like the above to resent the matter seems narrow. The present council and business men see no good reason why the sewer should not be built and it will probably be constructed the following summer. The institution is in no sense a detriment to the community. The erection of the present new structure gives employment to Hallowell men largely, and is one instance of its advantage to the city.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.

DR. RENO COLE.

Later papers received show the high esteem in which young Dr. Reno Cole was held by his fellow townsmen, and the men of his regiment, for whom he really gave his life—for the fatal disease, pneumonia, was contracted while ministering as assistant regimental surgeon to his men of the Sixth Illinois, at Camp Tanner, Chicago. Among the very first to volunteer, his short service of three weeks had won for him the respect of the officers and admiration of his men.

Since graduating from Rush Medical College in 1895 he had been a practicing physician at Monmouth, Ill., the home of his mother.

He was a member of the Order of Knights of Pythias, taking his last rank the evening his regiment left for the front. He was of most kindly disposition, pleasant ways, and had a great many friends.

At Fort Wayne the best of medical skill and extraordinary nursing was given him, but of no avail. The flags at Monmouth were put at half mast on the news of his death.

Had more been known at the time of the internment here, we are sure both the order with which he was connected, and the Grand Army would have done him honor.

SWEET CHARITY.

Arrangements have been made for a Benefit Concert to be given at Wilson Hall, the 1st inst.—the proceeds for the assistance of a worthy young woman who has been ill for many months, and in whom a large number of the young people of the city have taken a deep interest. The services of Prof. J. J. Turner, of Boston, (Baritone) and Miss Harriet Matthews, of Augusta, (Soprano) both of whom are favorites with the people of Hallowell, have been secured; these artists will be assisted by the best local talent. The good people of Hallowell always heartily respond to charitable work, but this will be an entertainment worthy of patronage for its own sake.

It is probable that nearly every person in the city will be given an opportunity to purchase tickets as a "ticket of volunteers" will be on duty a few days in the "envious" capacity of "ticket sellers." Please watch for them in a kindly spirit, and be prepared to give them a generous patronage. Further notice with the program will be given in this paper next week.

PARISH MEETINGS.

At the parish meeting held Monday evening last, at the Congregational church, the election of officers for the business year was transacted. Messrs. F. A. Wingate, A. S. Chadbourne and H. M. Pearson were chosen assessors. Messrs. F. A. Wingate and H. M. Pearson were re-elected Treasurer and Parish Clerk respectively.

It was voted to raise \$1000, for the ensuing year; the larger part of this is already assured, by pledges and vested funds. The trustees of the church funds were chosen, making the board at present, Messrs. Thomas Leigh, H. M. Pearson, and Annie E. Page. They are to report annually. These trustees were authorized to loan the assessors the sum of \$500 to take up the indebtedness against the church.

H. H. S. GRADUATION.

The annual graduation exercises, connected with the Hallowell High School, will be held at Wilson Hall Friday evening, June 17th. A class of 16 members, one of largest in the history of the school, will receive diplomas. Dennis' Orchestra, Augusta, will furnish music.

Sunday evening, June 12th, at the First Baptist church, will occur the Baccalaureate exercises—with address by Rev. F. F. Eddy, of the Universalist church.

Letter to Mr. Geo. A. Safford,
Hallowell, Me.

Dear Sir: Mr. H. H. Stephenson, cashier of the Oil City (Pa.) Savings Bank writes: "Nine years ago I painted my house with your paint. It wore so well I want to use it again."

This gives you an idea of the durability and quality of our Paints, as only the very best paint could wear nine years in the oil regions of Pennsylvania. A pure paint, mixed and ground by powerful machinery, will certainly outwear lead and oil mixed by hand in a tub. Our paint is pure. It is composed of pure lead, pure Zinc, pure Linseed Oil and pure Tinting Colors, and nothing else. It is made by mixing and grinding with powerful machinery—hence its great durability.

Yours truly,
F. W. DEVOR & Co.

Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and sets directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

HERBY BEANE, 1901.

SCHOOL NOTES.

Rev. and Mrs. Eddy were callers at the High School Friday afternoon.

Miss Mabel Seavey, '99, made us a call Monday afternoon.

Miss Jennie Clark was a visitor at the H. H. S. Monday.

Mr. F. E. Beane called at the High School Tuesday morning.

Miss Emma French made us a brief call Tuesday afternoon.

The Baccalaureate Sermon before the Senior class will be given by Rev. F. F. Eddy at the Baptist church Sunday evening, June 12. The male quartet of the Universalist church will furnish music.

Mr. Charles Brann called at the High School Wednesday afternoon.

Dr. Hamlet made us a number of calls this week, and gave a very interesting talk Wednesday morning before the Botany class.

The Junior masquerade social last Friday evening called out a good crowd in spite of the rain. A good time was reported by all who attended. The class netted about \$12.

The Senior Class will give a reception and dance immediately after the Graduating Exercises. All receiving reception tickets with invitation will be entitled to the dance if presented.

THE WEATHER.

The pleasant days since the rains have been remarkably clear and beautiful. Thursday gave us a very warm morning—but Friday brought the usual June temperature. It may be of interest to compare May 1898 with the same month in 1897. The average morning temperature, according to Capt. Varney's record, for May 1897 was 46.25; for May, 1898, 42. This last May was quite a percentage cooler than 1897.

Rev. Dr. Penney, of Augusta, will supply at the South Congregational church June 12 and 19, at the morning service. Those who heard his sermon last Sabbath will remember it many days, years even. Come down and hear him. The evening service will be omitted to allow opportunity to attend the Baccalaureate exercises at the Baptist church.

The Register Job office sends out this week a considerable amount of job printing for both Farmington and Manchester town officials.

The radical improvement of the lots at the rear of the business street made Thursday shows what a little hard work will accomplish. A like crusade on the outlook below will be in order later.

A Farmington gardener is making a successful warfare on the caterpillars by spraying them with a compound of strong soap-suds and kerosene. It is said to be very effective.

IMPORTANT NOTICES.

Deane W. Bowie has in stock a neat assortment of Fancy Shirts, selling at reasonable prices.

Stone and Anderson will be pleased to fill orders for cut flowers, for graduation or other occasions. Call in and interview G. W.

A. F. Morse & Son have in stock a decided novelty in shape of ornamental crepe paper, which may be used for lamp shades or purposes of decoration. Ask to see it when down street.

At the Universalist church the sermon topic at the morning service will be "Con-vention Echoes." Musical program of especial excellence. Sunday School at 11.45. No evening service on account of the Baccalaureate service.

The Modern Beauty

Thrives on good food and sunshine, with plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy she uses the gentle and pleasant Syrup of Figs, made by the California Fig Syrup Co. only.

A CARD.

John B. Hubbard Post, No. 20, G. A. R. Department of Maine, wishes to extend through the columns of the Hallowell Register, their due appreciation of the favors shown, and send heartfelt thanks to the Ladies of the John B. Hubbard Relief Corps, Mrs. Arthur Brown, of Augusta, the clergy of the city, the U. R. K. of P., and all others who assisted by donation of flowers in making the Memorial exercises a perfect success.

G. A. JOHNSON, Adjt.

Hallowell, June 7th, 1898.

CASH PRIZES.—Large cash prizes and other valuable gifts are offered by the J. C. Ayer Co., of Lowell, Mass., for collections of "Health Proverbs." Returns must be in by August 1, 1898. Begin your collections at once, and write them for further particulars.

EMERGENCY NON-ALCOHOLIC REMEDIES.

FOR HOME USE.

We hear much about "tiding people over" after exhaustive diseases such as

Pneumonia, Diarrhea &c with y, whiskey or wines." The ob-

tained being this, viz.: to propel a greater quantity of blood to different parts of the body so that the various functions are thereby performed more satisfactorily. Now what besides

brandy and whiskey will do this, and us save the danger lurking in their

use?

1st. Hot water with a few grains of Cayenne Pepper.

2nd. Hot water, half a cup or less; Carbonate of Ammonia, 20 grains.

3rd. Hot water 1-3 or 1-2 cup; Aqua Ammonia, 8 drops.

4th. Hot water, 1-3 or 1-2 cup; Aromatic Spirits of Ammonia, 20 drops.

Either of these fed hot in teaspoonful doses every 2 to 5 minutes, will rally as surely as brandy or whiskey.

In extreme cases give a large, hot enema. If necessary to prolong a stimulant, these may be safely continued for

days, but usually their use is suspended as patient rallies. Food is then re-

sured. In place of the old-fashioned mixture, egg-nogg, panada, etc.,

of milk, hot beef tea, or coffee un-

sweetened, made with hot milk instead

water. These will actually support

strength and rally the patient like-

ly.

In CRAMPS IN THE STOMACH.

Homoeopathic Tincture of Colocynth,

water, 2-3 glass, mix, give tea-

spoonful every 10, 20 or 30 minutes, till

er.

Where there is nausea, rejecting every-

thing, then apply hot compresses to

stomach and give hot enema, composed

of soap-suds, and 1 or 2 tablespoons of

stor or Sweet Oil. Keep extremities

warm.

Chloroform also may be inhaled.

For PALPITATION.

Immediate and permanent relief may

be obtained by taking soda or vichy

water.

To strengthen the heart where there is

pain in that organ. Homoeopathic Tinc-

ture of Cactus, 5 drops; water 2-3 glass.

Take a teaspoonful every 15 minutes,

half hour or hour.

For HEART FAILURE.

Rub over the heart with

essences to spine between

scapulae, every 2

assage of limbs

are likewise

It is a painful sight to see an otherwise robust man limping along on a crutch or cane, a sufferer from rheumatism. Rheumatism is a disease that will never attack a man who keeps his blood pure and rich. There is just one way to do this. That is, to keep the digestion and assimilation perfect and the liver and bowels active.

All cases of rheumatism are promptly cured by Dr. Pierce's Golden Medical Discovery. It creates a keen, hearty appetite, corrects all disorders of the digestion, and all weakness of the stomach. It makes the assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, the nerves strong and steady, and it drives all impurities and abnormal acids from the blood. It allays inflammation and dispels pain. It is the great blood-maker and flesh-builder. It does not make corpulent people more corpulent. Unlike cod liver oil, it does not build flabby flesh, but tears down the unhealthy, half-dead tissues that constitute corpulence, carries them away and excretes them, replacing them with the firm tissues of health. Thousands have testified to its merits. Sold at all medicine stores.

"I have been afflicted with rheumatism and kidney trouble," writes Mr. J. M. White, of Grove, Georgia, Co., Ohio. "I suffered untold pain. I was afraid I would lose my mind. At times was almost entirely helpless. There had not been a night for three years that I could rest in any position. I tried Dr. Pierce's Golden Medical Discovery. I used three bottles of it and am well of both diseases."

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and there's nothing else "just as good."

His Ambition.

The person to be envied most
Is not the one who counts his gains
Afar from storm and strife;
Nor yet the potentate who wears
A crown upon his brow;
It is the man who stands around
And tells the others how.

And if the project funds success,
The benefit he'll share;
And if it fail, he'll simply say
"Twas none of my affair."
He joins the triumph every time
And dodges every row.
The man who simply stands around
And tells the others how.

I would not be a warrior great
Nor hold a sceptered sway;
I would not be a bard to wake
Emotions grave or gay.
If fate would graciously consent
My choicest hold allow;
I'd be the man who stands around
And tells the others how.

—The Washington Star.

No other preparation has ever done so many people so much good as Hood's Sarsaparilla, America's Greatest Medicine.
